Dear mister Gallent, I am from Holland and live in a apartment complex called the Sequoia. I made a website about the building and recently I received two drone videos. Due to the fact that te video's are quit long to watch i searched for a song called Sequoia to add to the video. I came across your beautiful song (and video as well) I want to asked you if it is all right for me to use some pieces of your song under the videos. I will name you off course as singer/composer. If you want I even can put your music video on my website. I hope that it is approved by you. It is a non commercial website, mainly for the people who live there. The website is: www.desequoia.nl

Hi Thomas. By all means go ahead and use it. I appreciate it if you can give credit (and maybe list my website) lennie@lenniegallant.com.

Thanks for listening to my music !
